12 June 2003

# Targets Management Office

## *INTRODUCTION*

- Your briefer today will be Mr. Steve Milburn, Director, Targets Management Office (TMO)
- TMO folks live and work in Huntsville, Alabama
- We have several interesting and exciting topics to share with industry

# Targets Management Office

## *WHAT WE DO*

### Based on customer target requirements

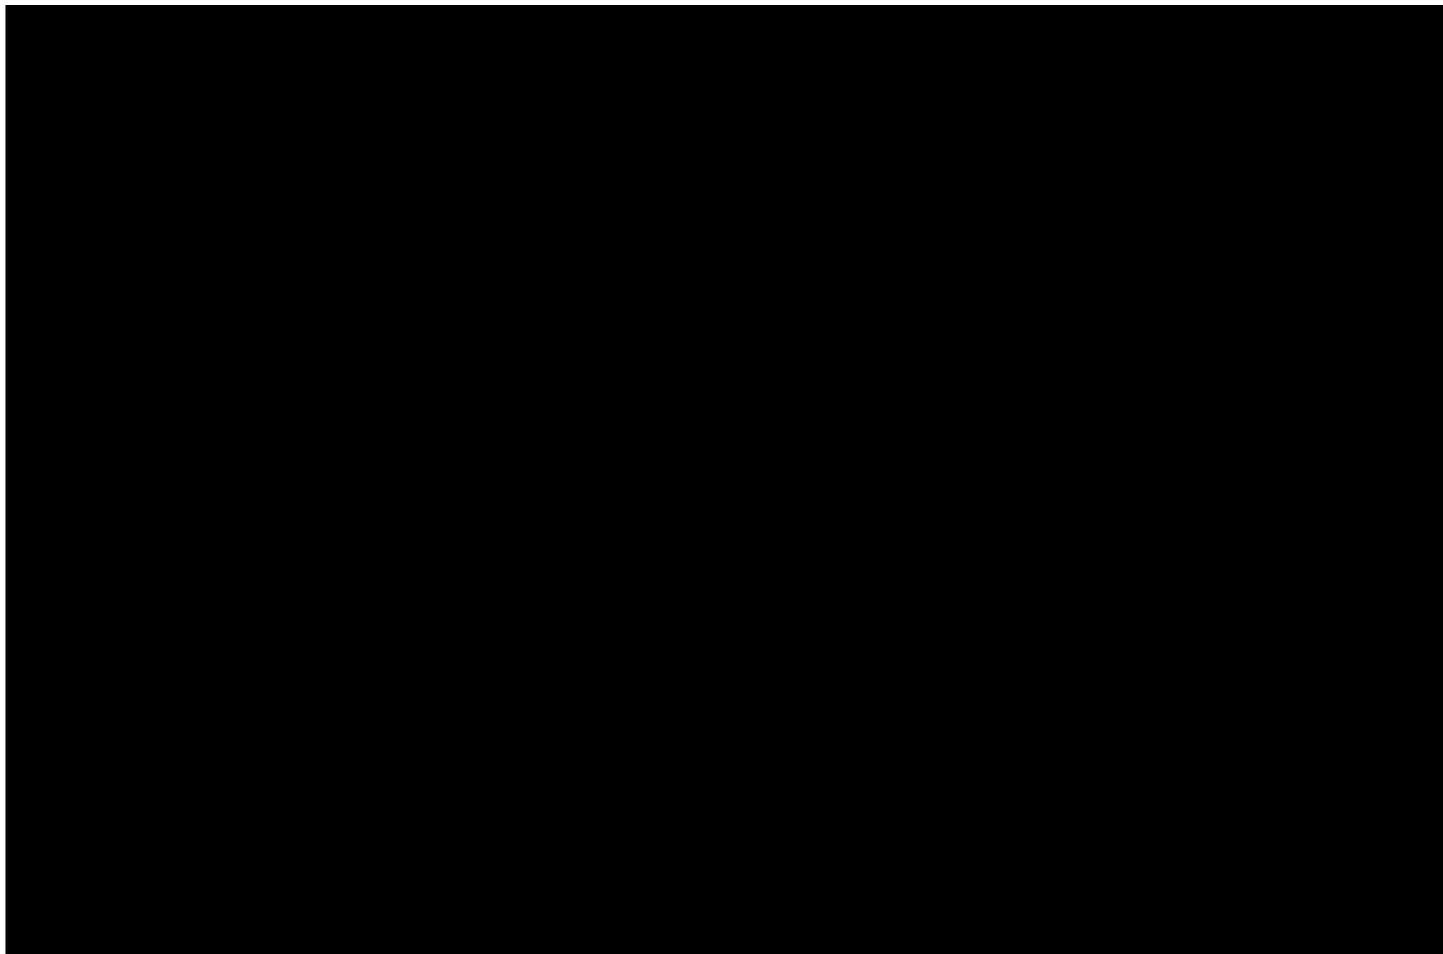

- Aerial – Fixed and Rotary Wing
- Mobile Ground / Foreign Materiel
- Short Range Theater Ballistic Missile
- Virtual – Models and Simulations
- Range Targetry Systems
- Auxiliary / Ancillary Equipment

# Targets Management Office

## *VIDEO*

# Targets Management Office

## *TOPICS*

- MQM-107 Enhancements
- Unmanned Aerial Vehicle – Target (UAV-T)
- Flight Services
- New Generation Army Targetry System (NGATS)

**Targets Management Office**

**MQM-107 Enhancements**

Project Director: Eric Block

Phone: 955-8428

E-mail: [eric.block@peostri.army.mil](mailto:eric.block@peostri.army.mil)

# Targets Management Office

## *OUTLINE*

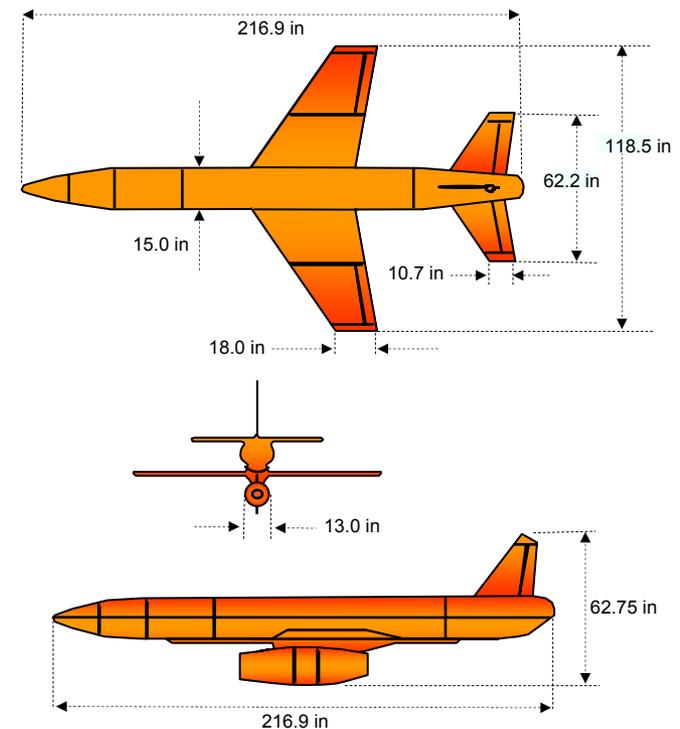

- Description
- Contract Information
- Schedule

# Targets Management Office

## DESCRIPTION

- U.S. Army's most versatile subscale target
- Users (U.S. Army, Air Force, FMS)
  - Gun Systems
  - Missile Systems
  - Tracking Systems

# Targets Management Office

## *DESCRIPTION (cont'd)*

- Altitude: 50K ft above MSL
- Airspeed: 250 - 600 KIAs
- Endurance: 70 min
- Variable RCS
- Recoverable
- Control: CDA
- Maneuvers:
  - Sustained 6.25 G turns
  - Barrel Roll
  - Pitchback
  - Slice
- Optional Payloads
  - Internal, 150 lb max
  - External, 300-500 lbs
  - Wingtip mounted pods
  - Towed targets
- Cost <\$300K in Production Quantities

# Targets Management Office

## *DESCRIPTION (cont'd)*

- Fielded in 1976 as “A” model
- Improvements underway to develop “E” model replacement
- Future Production Expected to Incorporate Composite Structures, Improved Engine, Improved Avionics Package

# Targets Management Office

## *CONTRACT INFORMATION*

- Contract Type – Firm Fixed Price
- Strategy
  - Full and Open Competition
  - Build to Print
  - Engines, Certain Avionics, Shipping Containers Supplied as GFE
- Estimated Contract Value < \$50M
- Engineering Services Option

# Targets Management Office

## *MQM-107 SCHEDULE*

▲ FY04 ▲ FY05 ▲ FY06 ▲ FY07 ▲ FY08 ▲ FY09 ▲

**Targets Management Office**

# **Unmanned Aerial Vehicle-Target**

Project Director: Mike Brown

Phone: 955-0302

E-mail: [mike.brown@peostri.army.mil](mailto:mike.brown@peostri.army.mil)

# Targets Management Office

## *OUTLINE*

- Types of Unmanned Aerial Vehicles (UAV)
- Examples of Tactical UAVs
- Requirement
- Contract Information
- Program Schedule
- Summary

# Targets Management Office

## UNMANNED AERIAL VEHICLES

### HIGH ALTITUDE, ENDURANCE UAV

40,000'-65,000' ALTITUDE, 12+ HOURS ENDURANCE

### MEDIUM ALTITUDE, ENDURANCE UAV

20,000'-40,000' ALTITUDE, 12+ HOURS ENDURANCE

### MEDIUM RANGE

40,000', 700 NM, Mach .91

### TACTICAL CLASS UAV

100' - 20,000' ALTITUDE, > 8 HOURS ENDURANCE

### VTOL UAV

100'-20,000' ALTITUDE, > 8 HOURS ENDURANCE

# Targets Management Office

## *TACTICAL CLASS UAV's*

# Targets Management Office

## *REQUIREMENT*

- Proliferation of UAVs by potential adversaries requires UAV target
  - Test of Weapon Systems
  - Training of Soldiers
- Significantly lower cost than operational UAV systems
  - Sensor Systems Not Required on Air Vehicle
  - Air Vehicle Cost does not Prohibit Target Destruction
- Simple to Operate and Maintain by Target System Operators

# Targets Management Office

## *CONTRACTING INFORMATION*

- Limited Project Funding Prohibits Supporting More than One Contractor's Concept
- Developmental Weapon Systems Schedules Drive UAV-T Development and Initial Production Schedules
- Statement of Objectives Solicitation
  - Allows Maximum Flexibility from Industry to Meet Performance Requirements
  - In Accordance With Current Acquisition Streamlining Initiatives
  - Provides Statement of Work and Preliminary Specification for Evaluation
  - Encourages Participation from Targets/Model Aircraft Industry
  - Allows Selection of Best Value Proposed Solution

# Targets Management Office

## *CONTRACTING INFORMATION*

- Cost Efforts
  - Final Design
  - TTCS(U) Integration
  - Prototype
- Time and Materiel Efforts
  - Logistics Support
  - Field and Flight Operations Support
  - Engineering Services Support
- Fixed Price Efforts
  - Production (Up to 10 Units)
- Estimated Contract Value < \$5M

# Targets Management Office

## UAV-T SCHEDULE

▲ FY03 ▲ FY04 ▲ FY05 ▲ FY06 ▲ FY07 ▲ FY08 ▲ FY09 ▲ FY10 ▲

RFP Release

Contract Award

Prototype Fab & Refurb

Fabricate Targets

IOC

# Targets Management Office

## *UAV-T SUMMARY*

- UAV-T will provide a representative, tactical class UAV target for test support (with expected overlap into training)
- Funding to support this effort is limited, innovative approaches will be required
- Project will be initiated in earnest during FY04 with a contract anticipated NET 3d QTR FY04 and NLT 1st QTR FY05

# Targets Management Office

## Flight Services

Project Director: Charlie Rich

Phone: 876-5312

# Targets Management Office

## *OUTLINE*

- Background
- Contract Information
- Schedule

# Targets Management Office

## *BACKGROUND*

**PROGRAM DESCRIPTION:** Flight Operations and System Sustainment Contract for Subscale Fixed Wing, Subscale Rotary Wing, Full Scale Rotary Wing and Ballistic Missile Target Systems.

**SUPPORT SERVICES:** Target Systems Are Flown at Numerous CONUS/OCONUS Ranges to Support Air Defense Artillery Training, RDT&E for the Tri-Services and Foreign Military Sales Requirements.

**TARGET HARDWARE:** Government Owned/Contractor Operated (GOCO) Targets, Ground Support Equipment and Control Systems.

**BASE CAMP:** Located at OroGrande Range Camp, NM.

# Targets Management Office

## *AERIAL TARGET FLIGHT SERVICES*

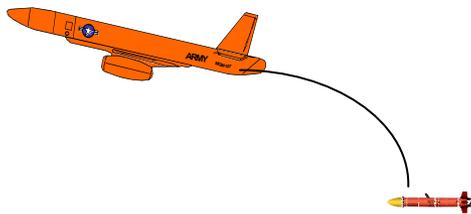

# Targets Management Office

## New Generation Army Targetry System

Projector Director: Steve Wright  
Phone: 842-9490  
E-mail: [steve.wright@peostri.army.mil](mailto:steve.wright@peostri.army.mil)

# Targets Management Office

## *OUTLINE*

- Organizational Structure
- Targetry Path
- What/Why New Generation  
Army Targetry System (NGATS)
- Key Players
- Approach
- Status/Way Ahead
- Summary

# Targets Management Office

## TARGETRY PATH

1985/  
1998

### RETS/ERETS

- Managed by TACOM Rock Island
- Development program with complete TDP
- Supply system - Army inventory
- Enhanced - control system upgrade

1999/  
2005

### INGATS/ATS

- Managed by TACOM Rock Island
- Commercial off the the shelf systems (COTS)
- Proprietary hardware/control system software
- Parts ordered through TACOM or Manufacturer

2006/  
2050?

### NGATS

- Managed by PEO STRI, PM ITTS, TMO
- Standardized System of Systems (Plug & Train)
- Integrated COTS and open-ended Interoperability

# Targets Management Office

## *EXISTING TARGETRY*

### LEGACY CHALLENGES

- **Legacy Standard Systems (RETS/ERETS)**
  - Produceability
  - Capability
  - Obsolescence
  - Scoring
  - AAR capability
  - Scenarios
  - Realism
- **Legacy COTS Target Buys (INGATS/ATS)**
  - ***Supportability***
  - Reliability
  - Availability (scheduled maintenance)
  - Lifecycle costs
  - Interoperability
  - ***Standardization***
  - Capability
  - Multiple operating systems
  - Scoring

# Targets Management Office

## “WHY NGATS?”

### **Training / Targetry Must Be:**

#### **Realistic**

Army is transforming – Threat not only encompasses armored forces, but also unconventional adversaries and tactics !!!

#### **Evolutionary**

New weapon systems are being developed – Individual and crew !!!

#### **Configurable & Deployable**

Threat can be anywhere for any length of time !!!

**Targetry must also be affordable and supportable**

# Targets Management Office

## NGATS KEY PLAYERS

Army Training Support Center (ATSC)

Army Training Modernization Department

PEO STRI  
BG Stephen M. Seay

PM ITTS  
COL Matthew J. Fair

Targets Management Office  
Mr. Steve Milburn

NGATS  
Project Director  
Mr. Steve Wright

MACOMS  
Range Reps

Industry  
Input

U. S. Army Corps  
of Engineers  
(CoE)

Department of the  
Army  
DAMO-TR

*All are part of IPT, providing valuable input*

# Targets Management Office

## *WHAT IS NGATS?*

### **Command & Control**

Use CTIA  
Point & Click, Scripted/Event  
Scenarios, Open Architecture,  
Maintenance Automation,  
Data logging/Display  
Live/Virtual/Constructive Exchange

### **Target Presentation**

Stationary, Moving, Evasive,  
Up/Down, Other

### **Support Package**

Initial Spares, NET,  
Sustainment Training,  
Supply Channel

### **Scoring**

Hit/Miss Location, Kill  
Assessment, Round ID

### **Target Representation**

Multi-spectral, Realistic, Multi-role,  
2D,3D

### **Communications**

Fiber Optics, Wire, RF, Other

### **External Interfaces**

Instrumentation

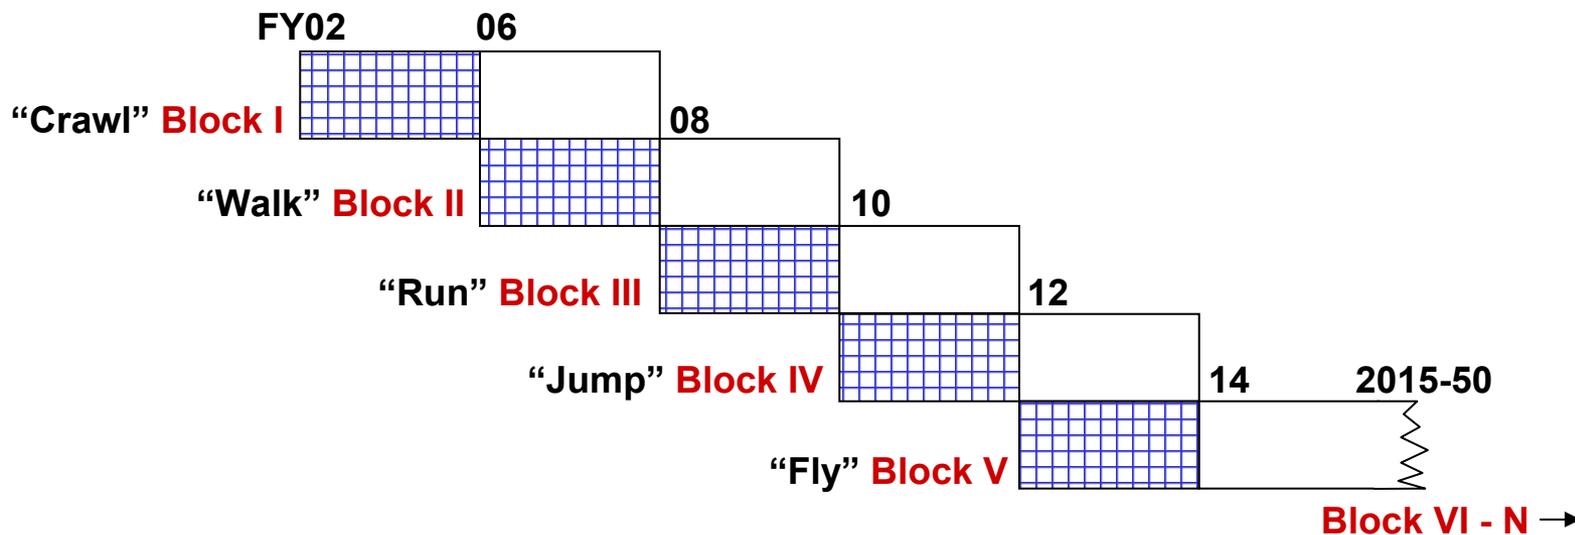

### **BES**

Flash, Bang, Smoke, Shoot-back

# Targets Management Office

## NGATS VISION

 **Developed**

 **Field**

# Targets Management Office

## ACQUISITION STRATEGY

- Evolutionary
  - Spiral development based on refined requirements and user feedback
  - **Blocked approach** based on continuous requirements definition and technology maturation

**Block I** - Meets current challenges at a reduced cost by establishing standards and leveraging existing COTS solutions

**Block II and later** - Based on future requirements, technology advancements, or training

← Backward Compatibility/Enhanced Realism →

- Utilize Lead Systems Integrator (LSI) as Prime Contractor to:
  - Supply and integrate range targetry - using qualified products
  - Field ranges
  - Provide New Equipment Training (NET)
  - Provide warranty coverage
  - Provide spare parts

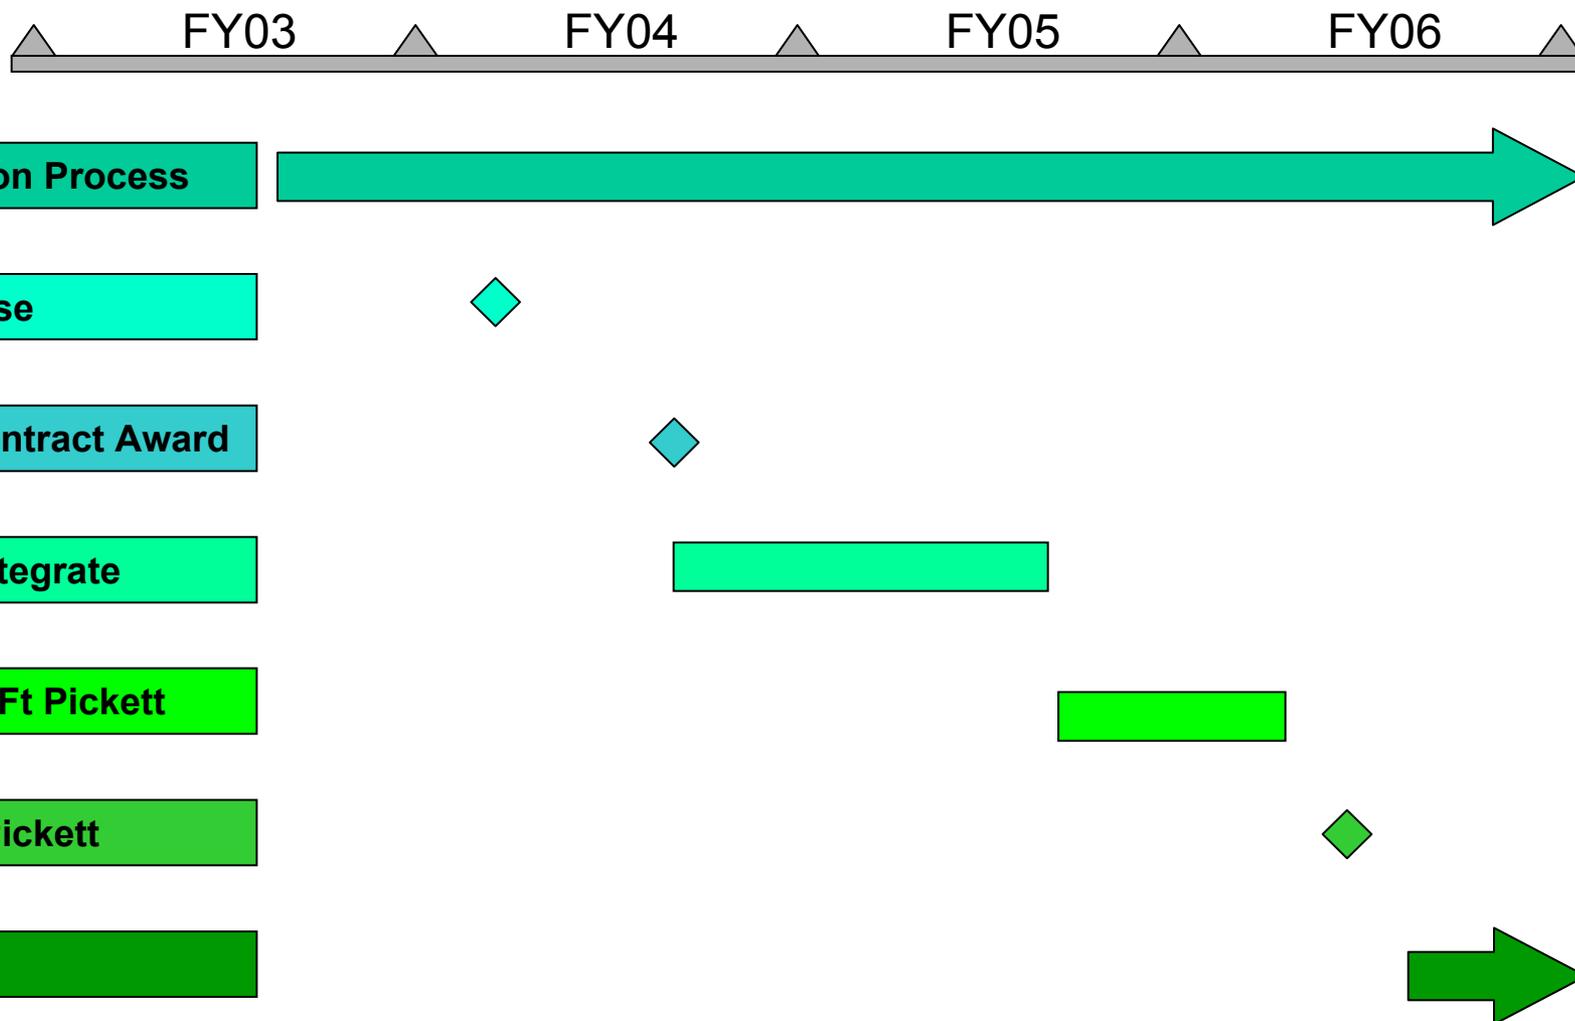

### ***NGATS LEAD SYSTEMS INTEGRATOR CONTRACT***

- Multi Year Multi Type Contract
- Base Effort with Options
  - Base [12-18mo] (award late FY 04)
    - Integration (Cost)
    - Test/Demo at Ft Pickett, VA (Cost)
  - Options [1- 4 yrs] (initial award FY06)
    - Range Installations, [Fixed Price]
    - Range support, [Cost]
    - Engineering Services, [Cost]
    - Training [Fixed Price]
- Estimated Contract Value < \$100M

# Targets Management Office

## NGATS SCHEDULE

# Targets Management Office

## *NGATS SUMMARY*

- Army has Targets Challenges
- NGATS Provides Effective Soldier Training Systems that are:
  - Standardized, Supportable, Interoperable
  - Reliable, Available, Maintainable
  - Realistic and Affordable
- NGATS Significantly Improves Range Operations:
  - Reduced Downtime
  - Efficient Scoring and Training Feedback
  - Greater Flexibility in Range Use and Targetry Asset Management
  - Reduced Maintenance and Operating Cost

# Targets Management Office

## *TOPICS SUMMARY*

Topics	Estimated \$ Value	Earliest RFP Release Date
MQM-107 Enhancements	< 50M	3 <sup>rd</sup> Qtr FY04
Unmanned Aerial Vehicle Target	< 5M	3 <sup>rd</sup> Qtr Fy04
Flight Services	< 20M	4 <sup>th</sup> Qtr FY04
New Generation Army Targetry System	< 100M	3 <sup>rd</sup> Qtr FY04

## *ACRONYM LIST*

AAR	After Action Report
AGTT	Aerial Gunnery Tow Target
ATFS	Aerial Target Flight Services
ATS	Army Targetry System
ATSC	Army Training Support Center
BATS	Ballistic Aerial Target System
BES	Battlefield Effects Simulation
CMTT	Cruis Missile Tow Target
COE	Corps of Engineers
CONUS	Continental United States
COTs	Commercial-off-the-shelf
CTEIP	Central Test & Evaluation Investment Program
CTIA	Common Training Instrumentation Architecture
DFCS	Drone Formation Control System
DoD	Department of Defense
ECM	Electronic Countermeasures
ERETS	Enhanced RETS
FMS	Forgien Material Sale
FY	Fiscal Year
GFE	Government Furnished Equipment

# Targets Management Office

## *ACRONYM LIST (cont'd)*

GOCO	Government Owned / Contractor Operated
GRDCS	Gulf Range Drone Control System
HSMST	High Speed Mobile Sea Target
ID	Identification
INGATS	Interim New Generation Army Targetry System
IOC	Initial Operational Capability
IPT	Integrated Project Team
IRTT	Infrared Towed Target
KIA	Knots in Air
LSI	Lead Systems Integration
LTMS	Lance Target Missile System
MACOM	Major Command
MDA	Missile Defense Agency
MSL	Mean Sea Level
MST	Mobile Sea Target
MSTCS	Multi-Service Target Control System
NET	New Equipment Training
NGATS	New Generation Targetry System
NLT	No Later Than

# Targets Management Office

## *ACRONYM LIST (cont'd)*

OCONUS	Outside Continental United States
PEO STRI	Program Executive Office Simulation, Training & Instrumentation
PM ITTS	Program Manager Instrumentation, Targets & Threat Simulators
POTA-Tow	Patriot Omnidirectional (RCS) Training Aerial
QTR	Quarter
RCS	Radar Cross Section
RDT&E	Research Development Test & Evaluation
RETS	Remote Engagement Target System
RF	Radio Frequency
RFP	Request for Proposal
TACOM	Tank & Automotive Command
TBMTT	Tactical Ballistic Missile Training Target
TDP	Technical Data Package
TMO	Targets Management Office
TTCS(U)	Target Tracking Control System (Upgrade)
UAV	Unmanned Aerial Vehicle
UAV-T	Unmanned Aerial Vehicle - Target
