

TRAINING & SIMULATION

INDUSTRY SYMPOSIUM

PEO
STRI

Mr. Jeff Simons

***Assistant Program Executive Officer
for Integration, Training Services (APEO)***

Training Services Contract

Market Research pulsing:

- ✓ Industry (RFI & Interviews)
- ☐ Customer base
- ☐ Other contracting agents (TSS Enterprise; OPTARSS; GSA)

Current Phase

Informs

Acquisition Strategy addressing:

- Single or multiple LOTs?
- Approach to SB participation?
- Awardee pool?
- Process for task order awards (templates; portal; forecasts)?
- Projected cost ceiling & contract life span?
- Which Performance Metrics to use?
- Risks and means to mitigate?
- How to maintain sufficient Ktr Industrial Base?
- Satisfying Full Spectrum Operations.

Purpose: Establish a versatile responsive contract vehicle to provide our Warfighters and federal agencies ready access to a wide range of training services worldwide.

Next Step

Contract (initial thoughts):

- MA ID/IQ
- Small Awardee Pool
- Full and Open (considering SB Lot)
- 10 Year Life
- Structured to promote rapid TO awards (90 goal)
- Worldwide Support

Background:
Unanticipated volume of customer requests for instructors and associated courseware development has prompted PEO STRI to establish a vehicle to satisfy increasing demands.

Drives

Contract will augment, not supplant, WFF capabilities.

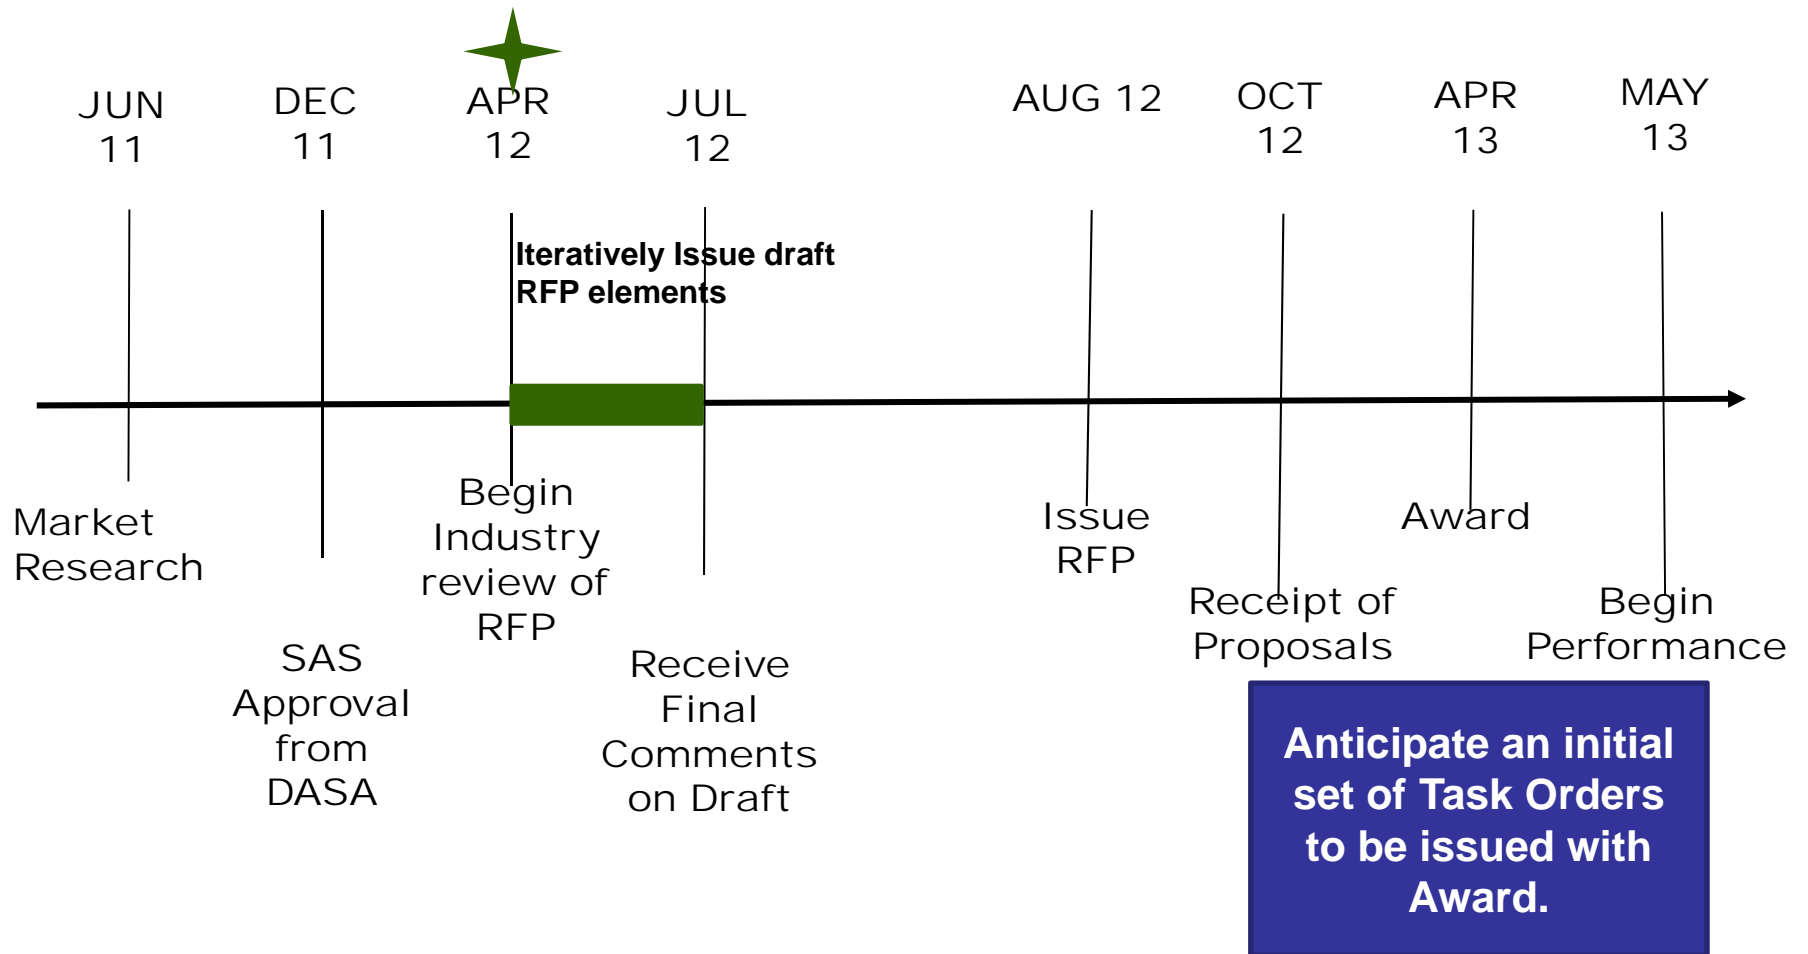

Task Scope Includes

Instruction (teaching) and facilitation.
Development of automation to support instructional material development and record keeping.
Development of instructional material.
Operation of instructional automated systems.
Training task analysis.
Preparation of Program of Instruction.
Exercise support and augmentation (training and rehearsal).
Instructional support for expert systems and weapon systems.
Development of digital applications for Smart-phones related to instructional support and training.
Distance Learning material.
Course Development.
Development and coordination of exercise scenarios.
Exercise role-playing support.
Leasing and/or purchasing of props and other exercise support equipment (ancillary purchases).
Software support in db development; operating simulations; etc.
Subject Matter Expertise in support of POI and other instructional development (vice the development itself).
Integration of TADSS as part of POI and exercise development.
Establishment of network and training asset infrastructure.
Maintenance and operation of weapon systems that are dedicated as training assets.

Broad Training Scope Addressing Full Spectrum Operations
